

DSTM - Script for Virtual Vote Counter

“Thank you, Mister/Madam Toastmaster!

Fellow Toastmasters, and welcomed guests,... as Vote Counter,

I will accept votes through the private chat to me, and count the votes after the audience votes for Best Speaker, Best Table Topics Speaker, Best Evaluator, and Best of the Big Three.

The Big Three are the Toastmaster, the Table Topics Master, and the General Evaluator.

I will record which person wins in each category.

I will not cast a vote myself, except in the case of a tie, in which case I will cast a vote to break the tie. However, I will **NOT** announce that there was a tie vote.

Again, place your vote by sending me a message in private chat (only to me).

At the end of the meeting, I will announce the winners.

You may also (and I encourage that you do) send comments to each speaker, evaluator, and Table Topics participant, by sending private chat messages to the person directly.

Thank you!

Back to you, Mister/Madam Toastmaster”
